OUR CROWDFUNDING CAMPAIGN TO HATCH A BETTER FUTURE IN CAMBODIA IS LIVE!!

[**DONATE NOW**](#)

If you donate TODAY you are invited to our Day 1 Donor Event with world-class social business experts and like-minded people passionate about deploying business for social change

The enthusiasm of our incredible farmers is electric, their hard work and determination is the reason our Social Business Chicken Farm is ready to scale to change thousands of lives in Cambodia

Our farmers are a microcosm of a major issue confronting Cambodia. Despite significant economic growth, food security is a serious concern with nearly a quarter of the population food deprived (FAO). 32% of Cambodian children still experience stunted growth and 45% of child deaths are due to malnutrition (UNICEF).

They are all former scavengers at the local dumpsite, where they risked their health everyday as they struggled to earn enough money to feed their families with many suffering from malnutrition and other major health issues - and now they manage our Farm!

Our Social Business Chicken Farm is scaling to the next level where a Village Grower Project will target the many determined, entrepreneurial families who are determined to change their future permanently.

Our goal is to use microfinance and social business to build a socially and economically inclusive 'World of Three Zeroes' where all humans lead dignified, meaningful lives

BUT

We need THE PERFECT BLOCK OF LAND to establish the 'layer farm' to ensure the farmers can access disease free, vaccinated chicks

Our Deputy Group CEO and CEO Australia Kat Dunn explains why we have to buy this land NOW so we can drive social change in Cambodia, at this [LINK](#)

Help us secure our land so we can support 2,000 people to build their own futures through economic inclusion by 2020, and many thousands more over the long-term
